

At Baldwin Risk Partners (BRP), we combine the expertise and technology of a best-in class firm with a deep understanding of your unique risk profile, providing measurable and sustainable strategies that focus on improving your risk profile and reducing your total cost of risk.

Our proprietary Holistic Risk Mitigation Approach integrates tools, resources, and expertise from three distinct yet complementary disciplines: **risk control, claims advocacy, and data science & analytics**. We start by clearly identifying your risk mitigation strengths and opportunities with our proprietary Risk Map and Baseline Risk Assessment, providing a roadmap to formalize a risk mitigation strategy and a tailored stewardship plan for you and your organization.

We are committed to helping you manage and simplify the challenge of building and deploying effective risk management strategies. When you partner with BRP, you can have confidence in the following:

YOU COME FIRST

The interest and well-being of your organization will always be our top priority.

HOLISTIC PROTECTION

Our risk advisors will work in partnership with you and your insurance carrier to design and deploy comprehensive solutions that drive exceptional outcomes.

PEACE OF MIND

We will ensure you have the knowledge needed to make sound insurance and risk management decisions, and will support you before, during, and after any adverse event — or whenever we may be needed.

BRP Holistic Risk Mitigation Approach

1

EVALUATE

We begin with our proprietary Risk Map and Baseline Risk Assessment to **evaluate** your risk management program and gain a better understanding of your business, team, and culture.

2

IDENTIFY

We compare our findings against industry best practices and **identify** program opportunities and strategies to reduce your total cost of risk, enabling your company to focus on your core business mission and objectives.

3

DESIGN

We collaborate with you to **design** a customized, best-in-class risk mitigation strategy and stewardship plan to address opportunities and maximize return on investment.

4

IMPLEMENT & MEASURE

We assist with **implementation** of your risk mitigation strategy and stewardship plan with regular analysis to **measure** ongoing progress and make any needed program adjustments.

Long-Term Benefits Bring You Peace of Mind

BRP's Risk Mitigation team helps you make sound risk management decisions, enabling you and your organization to focus more time and energy on your business and customers.

EXPOSURE & LOSS PROTECTION

We help you understand your exposures, then guide you on the optimal decisions needed to mitigate future events and losses.

CREATE RESILIENCY

Our tailored risk mitigation plan proactively identifies and controls potential events that can cause business interruption, loss, or reputational harm.

BUILD VALUE AND GROWTH

If an event occurs, our best-in-class response is focused on maintaining and building upon your organization's future value and growth.

Proven Solutions That You Can Rely On

At BRP, we customize our approach to match your distinct needs, designing streamlined programs and processes that achieve world-class results.
